

Side Entry Support Strap Installation Instructions

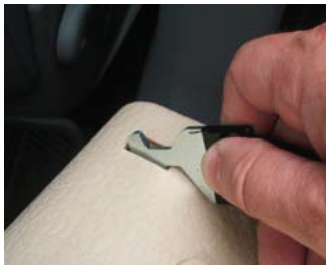

Use the enclosed Side Entry Support Strap to secure your PetStep® Folding Pet Ramp and prevent from tipping

1 Place your PetSTEP ramp in position in the side door of your vehicle.

2 Position the silver ramp hook over the long slot at the unsupported corner of the ramp. (the other corner rests on the car seat)

3 Insert the ramp hook into the slot.

4 Rotate the hook into position as shown.

5 Place the large black hook at the other end of the strap over the car door window frame as shown.

6 Lift the tab on the adjustment buckle to change the length of the strap, and relock to secure the strap.

7 The strap should now be supporting the corner of the ramp, preventing it from tipping.
